BALTIMORE—FRIDAY, FEBRUARY 25, 1825.

Time of Completion Fixed.

We have the pleasure to announce to our distant friends that the remaining five drawings of the **GRAND STATE LOTTERY** will take place on the days mentioned below, which will bring them to a close either on the 31st of **NEXT MONTH**, (March,) or on 12th of April, as provided below. In thus giving timely notice, so that our customers in the country may have the opportunity of sending on their Orders, we hope they will do so without delay, otherwise they may be disappointed in procuring tickets, which are now becoming scarce—the price too, most likely will be advanced previous to the drawing of the Great Capital of **FORTY THOUSAND DOLLARS**, especially if the 20,000 dolls. 10,000 dolls. and 5,000 dolls. should remain in the wheel until that time, as in that event, so splendid a situation of the scheme would very much encrease the demand from every section of the Union.

Fifteen drawings are now over, and there are **NOW FLOATING** in the wheel, the Capitals of 20,000 dolls.—10,000 dolls.—5,000 dolls. &c. as will be noticed more particularly on the next page.

16th drawing will take place 3d March.

17th drawing will take place 10th March.

18th drawing will take place 17th March.

19th drawing will take place 30th March.

20th and last may take place 31st March.

It will be recollected that agreeably to the scheme, the great prize of **FORTY THOUSAND DOLLARS** is to be deposited in the wheel on the 19th drawing; and with the view of giving to distant adventurers the opportunity of renewing any small prizes which they may have drawn, or for making additional investments, it will be noticed above, that there will be an interval of thirteen days between 18th and 19th drawings—but in order, however, to make up for the extra time thus taken, the 20th will take place on the day immediately succeeding the 19th, viz: on the 31st of **NEXT MONTH** (March:) *Provided however*, that in case the great Capital Prize of 40,000 DOLLS. should not come out on the 19th drawing, the Commissioners then will defer the 20th till the second week following, say on the 12th April, when it will positively terminate—in making this contingent arrangement, distant adventurers will have an additional period thereby, for completing their investments.

Remittances may be forwarded to **COHEN'S OFFICE** with perfect confidence, for if their Orders should not arrive in time, the amount enclosed will be returned by the first mail.

Address to J. I. COHEN, JR.—Baltimore.

The Capitals are still undrawn.

The hitherto interesting situation of the **GRAND STATE LOTTERY** increases with its progression—yesterday's drawing attracted a large number of spectators in anticipation of the distribution of at least one of the great Capitals of those so long floating in the wheels, but nothing came out higher than one of **ONE THOUSAND DOLLARS**, (No. 5761,) which we had the pleasure of sending in a whole ticket, per mail, on the 11th of last month to **A LADY** in *Albemarle county, Virginia*. The other prizes were variously distributed amongst both town and country adventurers.

Next drawing—very attractive.

The 16th drawing of the **GRAND STATE**

LOTTERY will take place on Thursday next, when previous to commencing, the Commissioners will deposit in the wheel, the Capital prize of **TWENTY THOUSAND DOLLARS**, agreeably to the scheme. The drawing on that day therefore will be highly attractive, in consequence of the wheel then containing the prizes of 20,000 dolls.—10,000 dolls.—5,000 dolls.—12 of 1000 dolls. &c.

VERY LATE AND IMPORTANT FROM PERU—DESTRUCTION OF THE SPANISH ARMY.

By the arrival of the schr. Elizabeth at this port from Kingston, Jamaica, accounts are received of a decisive engagement between the Patriot and Spanish armies in Peru, in which the former were completely victorious—the battle was fought on the 9th December: the Patriot forces were under the command of General Sucre. Genl. La Serna who commanded the Spanish army was wounded and taken prisoner, together with Generals Canterac, Valdez, Caratala and other chiefs, &c. The whole of the baggage of the enemy with their arms and military effects also fell into the hands of the Patriots. The official accounts were brought to Jamaica on the 19th ult. by the British government schooner Swallow, from Carthagena. Our limits do not permit their insertion, but it appears from them, that the power of Spain in Peru and throughout the whole of South America, is **EXTINGUISHED FOREVER**.

FLORIDA LANDS.—A proclamation has been published by the President of the United States, authorising a sale of lands, in May next, at Tallahassee, in Florida. Tallahassee, is the site selected for the permanent seat of Government of that Territory. The tract of country adjacent to it, which is that proclaimed for sale, embraces the greatest body of rich lands in Florida. These lands are well watered, interspersed with limestone, and, from their position, form one of the most healthful sections of that country. That, however which gives to them their greatest value, is their peculiar adaption to the production of Sugar and Sea Island Cotton, two articles of culture which present to the agriculturalists of the United States the most permanently profitable investment of their capital.—*Nat. In.*

SENATE OF THE U. STATES.—The Senate of the U. S. will meet on the fourth of March next, for the despatch of public business. It is summoned by a circular letter from the *President of the United States*, addressed to the several members, including those who are understood to have been already appointed to supply vacancies occurring in that body on that day.

Miscellaneous Compendium.

National Industry.—Within twenty miles round the City of Boston, there are now annually made forty thousand pieces of **FLANNEL**, each piece containing 46 yards. [The largest quantity of the same article, ever imported in any one year, was 55,000 pieces.]

Not a vessel now leaves the port of Baltimore (and we presume this to be true of other ports) for S American ports, which does not carry, as part of her cargo, *American Manufactures of Cotton* to the value of from ten to twenty thousand dollars.

Adventures of an American Turnip.—A year or two since, an enterprising farmer in the land of 'steady habits,' chanced to raise on his annual turnip patch, a turnip of most extraordinary and prodigious size. It occurred to Jonathan, that this large turnip, which was the marvel of the whole town and country, ought to be turned to some better account than to be given to the hogs or sold by the bushel. He had heard that some of the literati

of New-York had done well by sending botanical specimens as presents to the Emperor Alexander, and that his majesty, among other valuables, had sent gold rings in exchange for less ponderous articles than his turnip. Jonathan's mind was therefore made up, that the great turnip should be a vegetable, and he hoped, a meet offering to the Czar of all the Russias. The turnip was accordingly sent to St. Petersburg, and in due time, Jonathan received in return, several valuable pieces of coin. His neighbours all learned his good fortune, and one of them, emulous of Jonathan's luck, soon after, manufactured a cheese of huge dimensions, and despatched it as a present for the table of Alexander, and in the mean time waited anxiously for the result of the venture. The cheese was even larger than the turnip, and the neighbourhood all thought it fair to conclude, that his majesty would make a proportionable equivalent for the gift. At length it was announced, a vessel had arrived at Stonington, bringing a large box from Russia for squire Morgan, who sent the cheese last year. The box which was carefully sealed, and directed, was opened in presence of all the family connexions, and a goodly number of the squire's neighbours, and, on removing the packing materials, instead of the expected treasure, the *great turnip* was discovered which the spectators immediately recognized as their old acquaintance, and Jonathan declared, that "for his part he didn't see but what the turnip had stood the viage darn'd well."—*N. Y. Nat. Adv.*

Ohio Tobacco.—It is estimated that last year two hundred and fifty hogsheads were raised, and that at least one thousand will be raised the present year in the county of Belmont, in the state of Ohio—This business is likely to prove much more profitable to the Farmers in that country, than raising grain and stock.

Illustration of the production of gas lights.—To imitate in miniature, the production of gas-lights, put common coal into the bowl of a tobacco-pipe; cover the coal closely with clay, made into a stiff lute, or paste, with water; and when the clay is dry, put the bowl of the pipe into the fire, and heat it gradually. In a few minutes, a stream of carburetted hydrogen gas will issue from the end of the tobacco-pipe, accompanied with an aqueous fluid, and a tenaceous oil or tar. The gas may be set fire to with a candle, and will burn with a bright flame. When no more gas is disengaged, there will be found in the bowl of the pipe, the coal, deprived of its bituminous matter, or coke.

Patent Bells.—A patent has lately been taken out at Washington for an invention, which, it is said, will save three-quarters or four-fifths of the expense of bells now in common use. It is a simple triangular bar of cast steel, hung up by one corner. Three hammers, of different sizes are placed near the centre, which strike the base by means of turning a crank. Sounds are produced every way as loud and pleasant as from the common bells.

Speculations.—The Stock of the New-York Gas Light Company, the par of which is 100, was sold on Monday, as high as 178. This stock has advanced since the 5th inst. 28 per cent.

GEN. LAFAYETTE has addressed a letter to the mayor and corporation of New-Orleans, informing them that he would visit that city in the spring, intending to go through the Carolinas and Georgia, and intermediate states between them and Louisiana, and to ascend through the western states, in order to be at Boston by the 17th of June, the anniversary of Bunker Hill.

U. S. Mint.—Upwards of \$1,800,000 were coined at the U. S. Mint last year, and more is expected to be coined this year. A new and still more beautiful figure of Liberty is preparing for the new American Coins.
